

Zain Ejaz

Front-End Developer

+92 3105312929 | [Gmail](#) | [Github](#) | [LinkedIn](#) | [Portfolio](#) | Rawalpindi , Pakistan.

SUMMARY

Passionate and detail-oriented Front-End Developer with hands-on experience in building responsive and interactive web applications using HTML, CSS, JavaScript, React-Js, and Redux Toolkit. Proficient in Tailwind CSS, Material UI, and beginner-level experience with React Native and Next-Js. Strong understanding performance optimization, and responsive design.

SKILLS

- **Web Technologies:** HTML, CSS, JavaScript.
- **Frameworks/Libraries:** React-Js, Redux Toolkit, React Native, Next-Js.
- **Styling:** Tailwind CSS, Material UI, Shadcn UI, Aceternity , Bootstrap.
- **Tools:** Git, GitHub, EmailJS, Clerk , Visual Studio Code.

EXPERIENCE

Web Development Short Course — Arid Agriculture University

June 2024 - Aug 2024

- Built responsive UI elements using JavaScript and React-Js
- Applied Tailwind CSS to create modern layouts.

Front-End Development Intern — CodeAlpha (Remote)

Sept 2024 - Oct 2024

- Completed a one-month internship focused on responsive design and user experience.
- Created dynamic components using React-Js and Tailwind CSS.
- Practiced Git-based version control and project structuring.

PROJECTS

ARC Platform (Final Year Project)

[Preview](#)

- Built an AI-driven agricultural management platform delivering personalized AI features and streamlined order management to improve farming productivity and resource efficiency.
- The project utilized a modern technology stack including ASP.NET Core Web API, Entity Framework Core, SQL Server, React-Js, ML.NET, RESTful APIs, and JWT-based authentication.
- ARC offers a comprehensive suite of features some of them are AI-powered crop recommendation, real-time plant disease detection, AI assistant chat, weather forecasting, real-time messaging, order management system, farmer and supplier portals, admin dashboard with advanced analytics and role-based access control, geolocation services, feedback and rating system, and inventory management.

Food Order Web App

[Preview](#)

- Built using React-Js and Redux Toolkit.
- Designed responsive cart, order, and checkout features using Tailwind CSS.

Hotel Booking Website

[Preview](#)

- Fully responsive website with user authentication via Clerk.
- Styled with Tailwind CSS and built using React-Js.

Next-Js Modern Website

[Preview](#)

- Developed using Next.js, Tailwind CSS, Shadcn UI, and Aceternity UI.
- Focused on animation, responsiveness, and performance.

EDUCATION

Steps College (HSSC)

Aug 2019 – July 2021

Bachelor of Computer Science | PMAS Arid Agriculture University

Nov 2021 – July 2025

CERTIFICATIONS

- **Web Development** – Arid Agriculture University.
- **Front-End Internship** – CodeAlpha.
